ABOUT ME

Computer Science & Information Systems graduate with hands-on experience in developing scalable web applications and microservices. I bring a strong problem-solving mindset and a proven ability to quickly adapt to new technologies. Passionate about building efficient, innovative solutions, I thrive in fast-paced, team-oriented environments.

PROJECTS

2025/01 – 2025/03 **GrowHire – LinkedIn Automation Tool - Website**

- Developed an AI-driven job search automation tool using Python, Docker, and ChatGPT.
- The system scrapes LinkedIn job postings, analyzes job descriptions against user resumes, and generates detailed, AI-powered match scores.
- Integrated FeedScroller, a module that scans LinkedIn posts for relevant keywords and stores them in a Docker-based MySQL database for trendanalysis

2024/10 – present **Udemy Microservices Project**

- Developed CartWorks, a modular e-commerce platform with distributed microservices for user, product, and order management.
- Leveraged Spring Boot, Spring Cloud, and Docker to build a scalable, resilient system with Eureka for service discovery, Spring Gateway for unifiedrouting, and Resilience4j for fault tolerance.

SKILLS

Languages & Databases:
Java, Python, C++, SQL, HTML, CSS,JS,XML, MySQL, Microsoft SQL Server

DevOps & Tools:
Docker, Spring Cloud (Config, Eureka), Git, Maven, Postman

Backend & Frameworks:
Spring Boot (MVC, REST, Security, JPA), Spring Gateway

Architecture & Concepts:
Microservices, centralized config, service discovery, REST API design

PROFESSIONAL EXPERIENCE

2025/04 – present
Rannana

Developer
IDMR Solutions Inc.

- Resolved backend support tickets by identifying root causes, classifying issues by severity, and ensuring timely fixes in production systems.
- Diagnosed and resolved data, SQL, and front-end issues, integration mismatches, UI bugs, and layout problems.
- Built custom features and updates through SQL, backend logic, HTML, CSS, and XML.

EDUCATION

2012/09 – 2017/06
Ein HaHoresh

Ma'ayan-Shachar
10 Units Computer Science and 5 units Physics.

2021/10 – 2024/10
Haifa, Israel

BSc Computer Science and Information Systems
University of Haifa

COURSES - UDEMY

Spring Boot 3: Learn Spring 6, Spring Core, Spring REST, Spring MVC, Spring Security, Thymeleaf, JPA, Hibernate, MySQL

Master Microservices with Spring, Docker, and Kubernetes (in progress)
